

About Anupam classes

My name is Anupam Verma, I completed my primary education from my village, and I completed my B.Ed. from BHU University, along with this I also completed my CTET and JTET, it was always a dream of mine. I wanted to open an institute and after completing my education, I founded Anupam Classes in 2012. Today it has been 11 years since Anupam Classes started. Anupam Classes has always maintained the tradition of providing the right and best education to all the children. Today there are many children in Anupam's classes who are fulfilling their dreams. We are working hard for their future with all our might. We hope that one day we will emerge as the best teachers from the entire Dhanbad and help more and more children to achieve better in their life path.
